Secretary's Report

I am pleased to report that in general the SHASHWATA SUCHETANA GRAMIN PATHAGAR has put its best effort in the year 2021 – 2022 to do well in social welfare endeavour for the poor and underprivileged brothers and sisters of our fragile but unified society. Moreover, I would like to convey my heartfelt gratitude to our members, Staff Members, well-wishers donors for helping us in all respects in the matter of Social Welfare activities and development action for the community by serving the poor and needy people. Our organization has been doing multidisciplinary activities since its inception with good factors. The people's trust to us is our viaticum to our journey.

It has become almost a matter of habit to write first about our achievements and shortcomings in specific projects and then touch briefly upon future plans of action we would consider necessary to follow for best utilization and exploration of resources. Let me write somewhat differently in this communication. Friends, well-wishers and civil society colleagues of SHASHWATA SUCHETANA GRAMIN PATHAGAR would be glad to know that after a two decade-long existence in Hooghly NGO world, we have finally reached a take-off stage.

I should have no qualms about admitting that documentation has indeed remained the weakest of all our activities.

It is in this area of need and impact assessment that we would henceforth like to focus under a newly conceived documentation initiative. Beneficiaries' perceptions and assessments should hold the main key to our understanding of the entire situation.

So many things have been achieved because of the hard work of SHASHWATA SUCHETANA GRAMIN PATHAGAR team members and co-operation of the local stakeholders. I thank them all.

I would only reiterate here that we would continue to rely upon our precious human resources in the coming days and try to serve the cause of fighting women & child labour along with trafficking and child prostitution and degradation with all our might.

Although much has been achieved, the society cannot rest on its laurels. I hope it will attract even greater public support to enable it to give comfort, solace and hope to many more.

We acknowledge co-operation, help and assistance from all concerns, including Donor, Well-wishers, Friends, community members and specially Women group-members, our volunteers, associates, members and other individuals without which we could not translate our dreams into reality.

We have enough confidence, courage and firm determination to combat the maladies; we need to be capacitated more for further promotion of our society.

Thanks to all for their contribution and involvement.

Health Programme –

Many villages in **Hooghly** District specially in the areas nearby block is been observed they are till date deprived of a simple basic health facilities, though the Government boost of health facilities in the area, but in fact all are in figures not in fact. SHASHWATA SUCHETANA GRAMIN PATHAGAR felt the reason that this poor people

need immediate health intervention and they have no trust to the modern society due to previous experience regarding exploitation of their socio-economic status which eventually made the scenario worse.

SHASHWATA SUCHETANA GRAMIN PATHAGAR is trying to change the scenario with its health care programme where people can get basic medical aid including some medicine free of cost. SHASHWATA SUCHETANA GRAMIN PATHAGAR didn't stopped here it grew in having faith from the people whom we have served with many other programmes such as HIV/AIDS awareness and counseling, Promotion of Nutritional food for the children as well as babies, Family Welfare awareness programme, Adolescent health, Eye health, Helping to rehabilitate for the disabled and overall health education camp which we have always gave emphasize in giving priorities to the above mentioned programmes.

The people suffering with general sickness were referred Govt. Hospitals for treatment. HIV/AIDS awareness programme has been taken up for proper sensitization among the masses.

Education Programme –

Education is the building block of a proud nation. Lots of research has been done till date regarding where we are standing in providing basic education. It is surprising that after so many researches we are still reluctant to make a difference regarding this simple word know to be education. We neither tried nor able to solve the problem related to education and why there is still big difference from the perspective of an urban child having education and rural child having education. Both of them are having education but in a longer term we will see eventually the rural child will ultimately drop out because of numerous reasons. One is obviously is poverty other is pressure from the child's family in opting out for easy income. This ultimately results to insecure future where the child grows up and follows the same steps as his or her mother taken for him.

Our formal and non-formal education has proven its effectiveness in the society.

A mass awareness generation followed by a systematic procedure of attracting peoples to the education sector will eventually bring a great difference in the scenario. In this regards SHASHWATA SUCHETANA GRAMIN PATHAGAR helps by distributing books to the needy meritorious students, including free pre primary education and including giving emphasize in our ethnic socio – cultural mode of education in form of “Brotochary Programme”

Social Programme:

SHASHWATA SUCHETANA GRAMIN PATHAGAR being a social welfare organization and furthermore, a total women oriented social organization has lead to a maternal feelings for the deprived. MSMS thus, had been indulge itself in various kind of social support programme, viz., educational support for the meritorious student, marriage support, food and cloths support the have-nots, etc.

Though we feel that this small contribution is not enough to cater the large need of requirements. But we feel content atleast some of them can sleep peacefully enough to rise next day with more vigor and strength to work for their own benefit.

We are looking for support from various end to fulfill our aims and mission. We welcome every individual, corporate sector to come up and support our cause for the poor beneficiaries who need your help to sustain themselves.
